CivicSays

Local Government Concerns Tracker (Ticketing System)

SYSTEM OVERVIEW

CivicSays is a digital platform designed to streamline the reporting and tracking of citizen concerns to local governments. It eliminates the need for residents to physically visit the barangay hall by allowing them to submit requests and complaints online, track progress in real-time, and receive updates directly from officials.

HOW IT WORKS

1. Resident submits a request or complaint through the online form
2. System generates a unique Ticket ID (e.g., CIV-ABC123)
3. Official reviews the ticket in the dashboard
4. Official updates status and adds comments as needed
5. Resident tracks progress using the Ticket ID
6. Two-way communication continues until resolution

BENEFITS

No Travel Required report issues without leaving home
Real-Time Tracking know the status of your concern anytime
Accountability Public visibility on response times
Centralized Records all tickets stored securely in cloud database
Easy Communication direct comments between residents and officials

KEY FEATURES

For Residents:

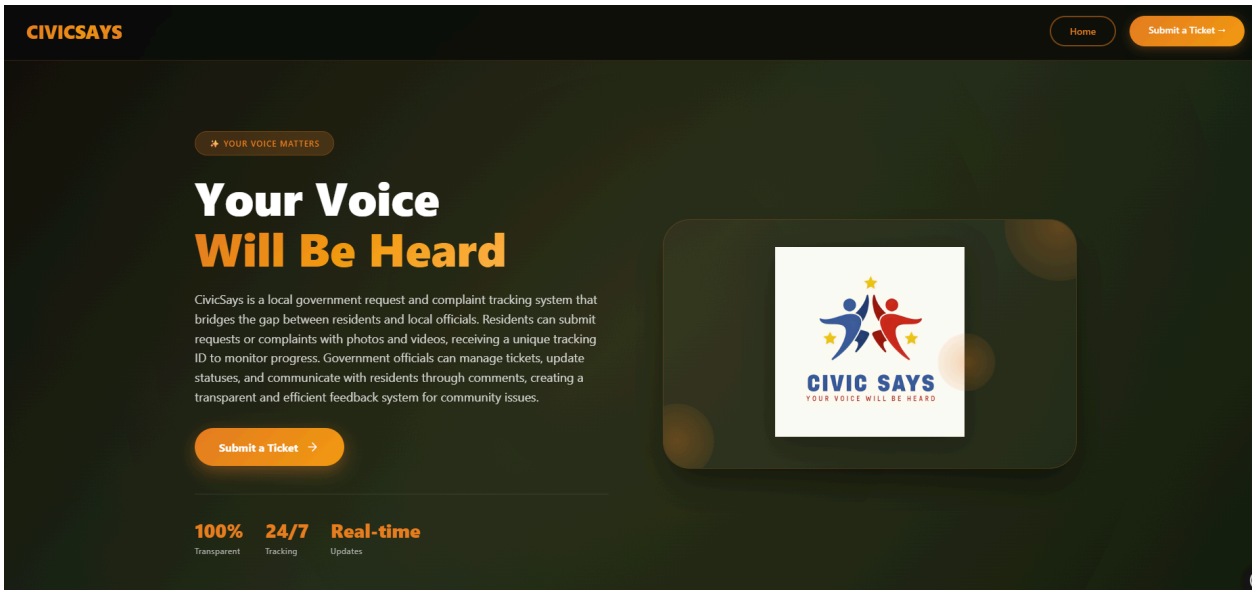
Submit Requests/Complaint - Easily report issues with photos, videos, and detailed descriptions
Track Ticket Status - Use unique Ticket ID to monitor progress anytime
View All Tickets - Search by email to see complete history of submissions
Add Comments - Reply to official updates with additional information
Upload Media - Attach photos and video links (YouTube/Drive) to support reports

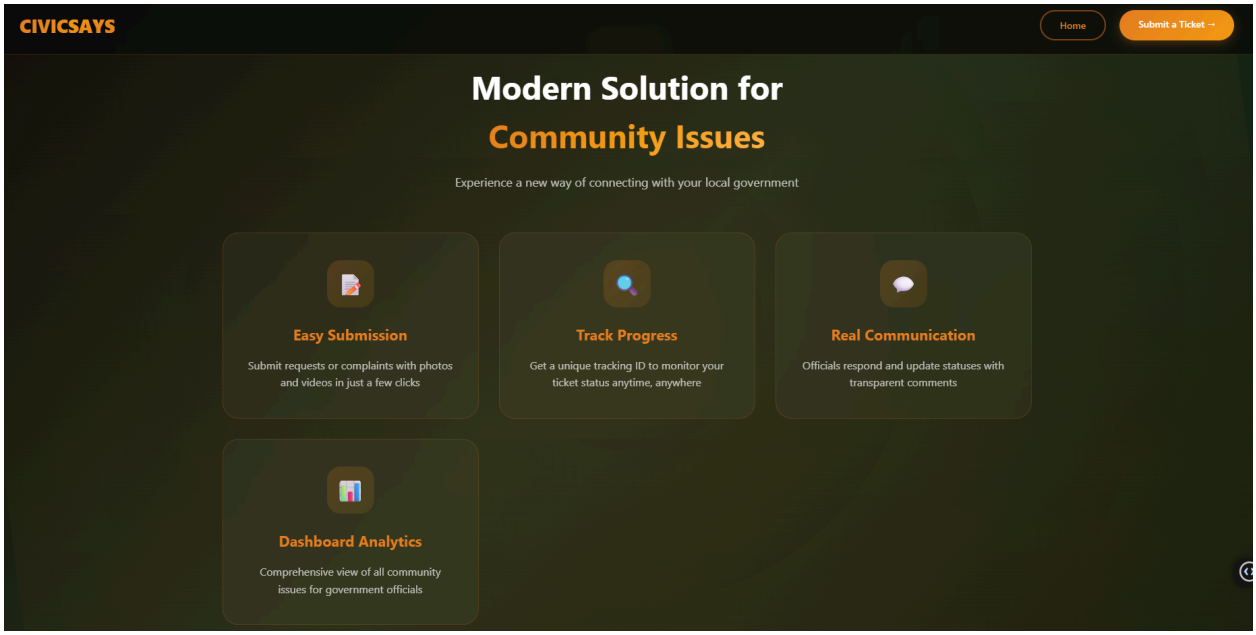
For Officials:

Dashboard Overview - View real-time statistics: Total Tickets, Pending, In Process, Solved
Manage All Tickets - Browse, search, and filter tickets by ID, name, email, or title
Update Status - Change ticket status: Pending → In Process → On Hold → Solved
Post Official Responses - Add comments and updates visible to residents
Full-Screen Ticket View - Three-column layout showing all details at once (no scrolling)

HOMEPAGE

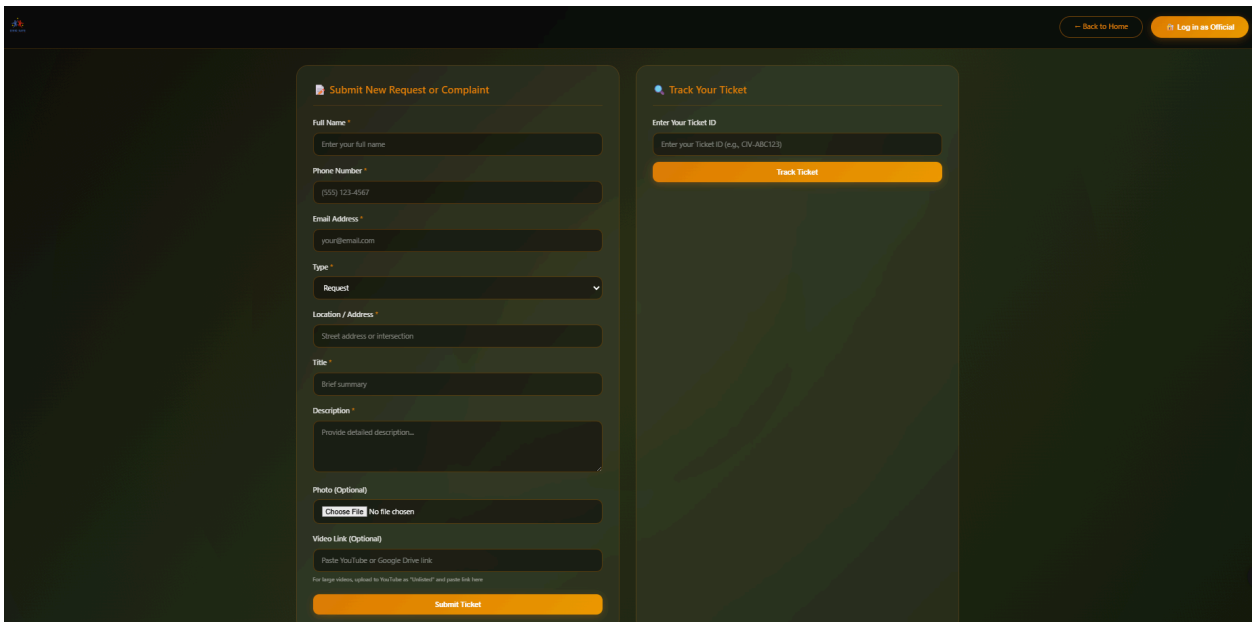
The CivicSays homepage serves as the main entry point for residents and officials. It features a clean, user-friendly design with a prominent "Submit a Ticket" button that directs residents to the reporting form. Key features such as 100% Transparency, 24/7 Tracking, and Real-time Updates are displayed to build trust and highlight the system's benefits.

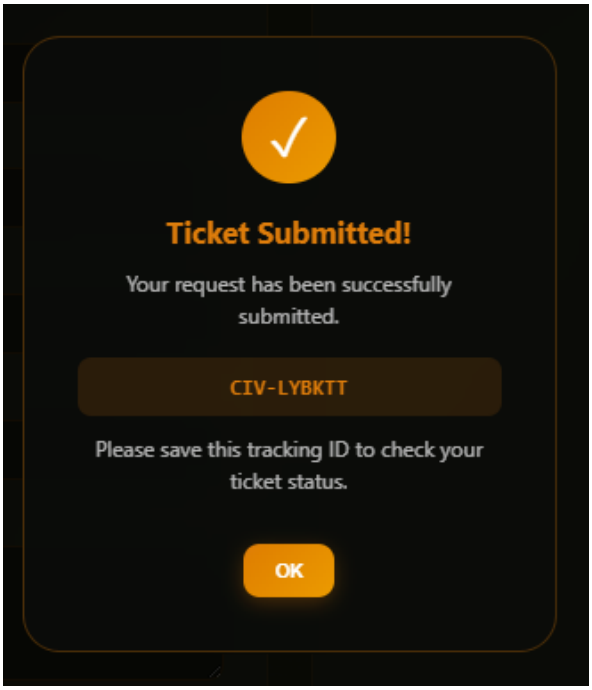




SUBMIT A TICKET FORM

This is where residents report their concerns to the barangay. The form collects all necessary information to properly address the issue.Once the form is submitted, a success message appears with a unique Tracking ID (e.g., CIV-ARMYZY). Residents are instructed to save this ID to check the status of their ticket later. The system confirms that the request has been successfully received and is now in the barangay's queue for review.





OFFICIAL LOGIN/DASHBOARD

This is the secure entry point for barangay officials to access the management dashboard. Officials must enter their credentials to view and manage resident tickets. After logging in, officials are greeted with a real-time statistics dashboard showing key ticket metrics. Clicking on any ticket opens a full-screen view with complete details, allowing officials to update status and post responses.

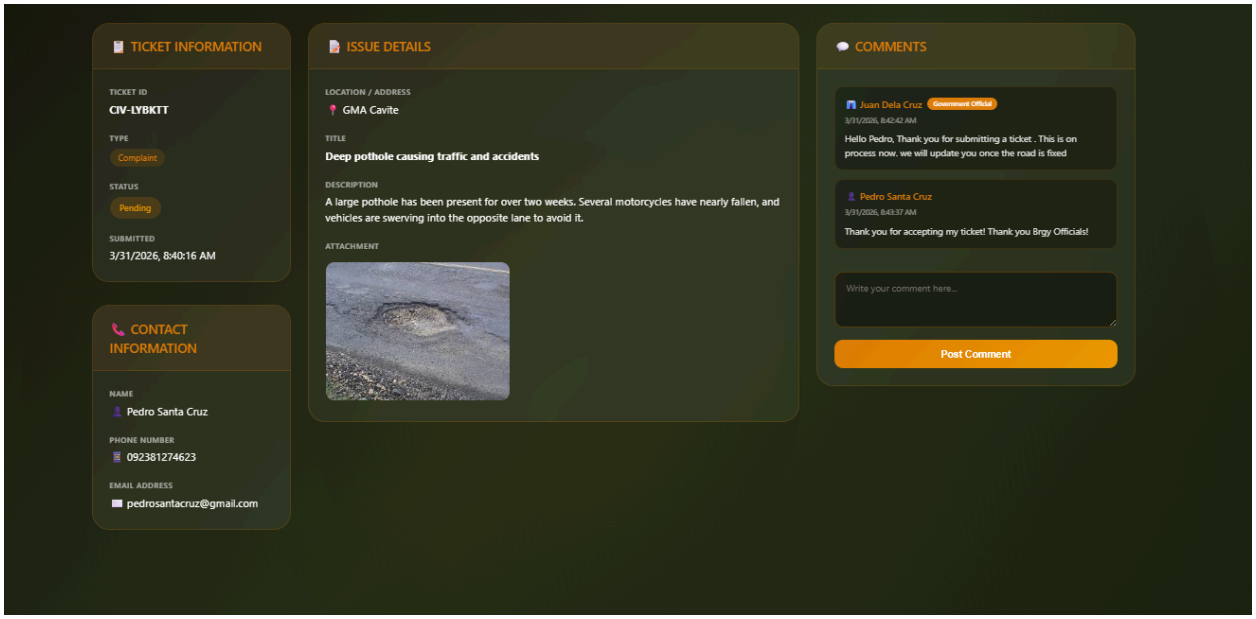
INSIDE OF THE TICKET



The status indicates the current progress of a ticket. Pending means the ticket has been submitted and is waiting for an official to review it. In Process means the ticket has been acknowledged and the barangay is already taking action to address the concern. On Hold means the ticket is temporarily paused because additional information is needed from the resident or because the barangay is waiting for resources or approvals. Solved means the issue has been fully resolved and the ticket is now closed.

The comments section allows both residents and officials to communicate directly within the ticket. Residents can use this space to provide additional details, answer questions from officials, or follow up on their concern. Officials can use it to acknowledge receipt of the ticket, ask for clarification, give updates on progress, or inform the resident once the issue is resolved. This keeps all communication organized and transparent, ensuring that nothing gets lost and both parties stay informed throughout the process.
